We all met at McDonalds Blaxland at 8.30 for a 9am departure. Everyone was there before time. Some of us grabbed breakfast and then we headed out to our cars for a quick chat then we were ready to go. Terese and Gis were tail end for the day. We headed up the GWH towards Wentworth Falls where we turned off. We went past a private

hospital before heading into the Blue Mountain National Park. I (Kim) rang National Parks on the Wednesday prior to coming to make sure that the tracks were still open as they say they will close them in wet weather conditions. I got the all clear! We continued on for about 30mins or so and low and behold – track closed due to grader work.

Not happy Jan (or should I say Jenny at the NP office who will be getting a call from me on Monday).

Anyway, we all turned around and headed off towards Ingar Falls Picnic Area. Once we got there and had a loo break and a look around we had a discussion as to where we should head. It was decided that we would then go further up the highway, across the Darling Causeway and down Bells Line of Rd where we would take the Patterson Ridge Fire Trail down into Burralow and

have lunch there, which is exactly what we did but not before being introduced to Gis's "selfie stick". The recent rain had washed the track out a little bit but nothing too bad. We went through one big mud puddle which was quite bumpy and a little slippery on the exit.

Once we got to Buralow we all had our lunch and sat around for a nice chat and laugh under the big gum tree. Even though we didn't make the McMahons Point look out, we still all had a fantastic day!
