

# BIRD'S ROCK TRAIL

Plazonic family (trip leader)  
Andrew Wise

We had a very relaxed start to our day with only one member being able to attend after several late conciliations due to the winter bugs. Once we finished our quick briefing we headed to our first stop at Birds rock trig point. After admiring the view, we headed on down Birds rock trail. Andrew abandoning all hope not getting underside his car muddy after all the recent rain and a few more bush pin stripes to the mighty Patrols we came out to one my favourite place that takes your breath away and makes you truly feel on top the world!

We paused here for a time allowing everyone to soaking in the beauty then we all headed back up the track to turn down Bird's Rock trail 2. We stopped at the end this trail for lunch then decided to do a bit reccie, some very tight corners and narrow spaces latter we found our way to Birds rock trail 1 and to its end where we found another great view after a bit bushwalking. We then head back to our camp said our goodbyes and agreed was a great day had by all.  
Kylie
